About me

I'm a very energetic frontend developer with experience in design and create websites and web applications.

I'm experienced in HTML and CSS,Javascript, React, Redux, Typescript, Jest, Unit testing with React testing library.

My most powerful skills is my unusual ability to use styled component as no one. I'm also really good setting SOLID patterns in the code structure to get a better and scalable code.

I have a lot of experience working with teams, so my communications skills are pretty optimal.

Tech Stack

Strong: HTML/CSS, Styled Components, React.
Proficient: JavaScript, Gastby, Jest, React Testing Library.
Novice: Typescript, NodeJS,Redux.
Extra: SVG animations with CSS/Styled Components.

Languages

Spanish -> Native
English -> B1

Education

Computer Engineering at UADY (Universidad Autónoma del Estado de Yucatán)

Experience (Only last 3)

(Disclaimer: Many of the project I'd worked are properties of my formers employers and they don't want to publish information on then, hence I won't describe any detail that can compromise this)

WIZELINE

(January 2022 - JULY 2022)
Global technology services company.

I worked as a react frontend developer for a few wizeline clients, as well as in several internal projects of the company. During my time at Wizeline I had the opportunity to give talks about Git and asynchrony in JS, I also had the opportunity to train a work team on how to have a clean and scalable code, as well as support with the design of architectures for it. frontend.
